

COPPER TANK LONG LIFE SOLUTIONS

Hot Water Simplified

Features & Benefits

- ⇒ 10 year Warranty
- ⇒ Pressurized tank
- ⇒ Extra Long life Copper Construction
- ⇒ Watermark Approval
- ⇒ Dual Handed Connections
- ⇒ Adjustable thermostat
- ⇒ Automatic Over- Temperature Safety Cut-Out
- ⇒ Relief valve supplied
- ⇒ Rust Free Water with Silver Brazed Joints
- ⇒ Attractive Modern Sheering Design
- ⇒ Durable Colour bond casing
- ⇒ Proven Reliability through Years of Experience
- ⇒ Australian made & owned

10 Year Warranty

Like all quality products manufactured by Edson, the mains pressure range is fully serviced Australia wide and supported by national spare parts back-up.

The Mains Pressure ("MP") range continue a long line of outstanding long life hot water systems produced by Edson. Over the years no material has been able to guarantee the same life that copper offers. Edson has now responded to the demands of the plumbing industry and introduced this exciting range of product with a **10 Year Warranty!**

MP Model	MP9	MP30	MP40	MP50	MP80	MP125	MP160
Storage Capacity (litres)	9	23	40	50	80	125	160
Height (mm)	430	415	550	650	990	1370	1650
Diameter (mm)	210	385	385	385	430	430	430
Weight (kg)		17	23	26	34	46	62
Current Draw (amps)	10	10	15	15	15	15	15
Standard element (kw)	2.4	2.4	3.6	3.6	3.6	3.6	3.6
Max. cold water supply pressure (kPa)	560	560	560	560	560	560	560
Max. working pressure (kPa)	700	700	700	700	700	700	700

Whether you need piping hot water in your office, caravan, shop, factory, hotel or home! There is a quality Edson compact or standard system to suit your needs.

Edson has over 45 years experience in the manufacture of water heating appliances. The one constant in all our time as a manufacturer has been our commitment to providing true, low maintenance, quality products, for continuous use, day in day out.
